Purcell I. T., Jan. 31 .- To the Editor of the Eagle: The movement inaugurated by Judge Yancy, ex-United States judge of the central district, calling for a convention of representative citizens in Indian Territory for the purpose of discuss ing needed legislation, is meeting with a hearty response from the business men of the territory. The call, which will be made in a few days, will prabably designate Purcell as the place for holding the convention. A representative body of the intelligent, thinking, conservative claswill be in attendance. The present de piorable condition of the inhabitants of Indian Torritory demands immediate ac tion on the part of congress, and this convention wil iforcibly bring to the attention of the present session of congress the conditions that now prevail. While there is a diversity of opinion in regard to the details, it is now believed the convention will be ni favor of the immediate erection of a territorial form of govern-

The legislation enacted by congress t the last five years together with the rulings, orders, decisions, and suggestions, of the various commissions have only succeeded in rendering more chaotic the ponditions that at that time prevailed, At present the opinion of the most ignorant full-bloods in the territory is worth more on any fegal proposition, fixing the status of inhabitants here, than is the opinion of the mast profound jurist. Business in all lines is paralyzed, the courts are being overrun with unlawful detainer suits, and the jadis are being filled with percons to enforce their believed rights with thotgun, Winchester and sixshooter. It has been said by prominent citizens. within the last three weeks that the of this country would "run red with the blood of land-jumpers" unless some immediate action and decisive acwas taken by the government to prevent the controversies arising over land

convention soon to be held will bring this matter in a foreible manner to on of the notional legislature, and it is not at all improbable that a solid frainfield of representatives will go the period. The old pageouthole route for legislation in this country has made the habitants sick and sore of this method. The expectation that government emplayer whom salaries depend on a connuance of the present condition, will mend a change, will not be realized, flon must be taken to bring about the dewired results:

A territorial government with officials sterted by the people to whom they will to responsible will the most quickly meet the requirements, and the prevalitug sentiment in this section indicates that congrees will be asked for legislation necesoffer to that end. TERRITORIALIST.

10 WIN BACK THE EAST

While Grossly Defrauding the Western Silverite.

(Special correspondence of the Eagle.) Washington, Jan. 31.-While it is : settled fact that silver will be in the national Democratic platform of 1900 as strongly as in 1896, it will not be discussed. It will be used as a bait to catch the western vote; the western sliver Democrat, Populist and Republican will be duped for the benefit of securing east. ern votes for Colonel Bryan. This much was settled last week in this city when Colonel Bryan was here. He consulted the leaders of the party; men in and our of congress. Nightly meetings were held and this policy decided upon. Skeptica Democrats; papers always looking for a chance to ridicule predictions made by Republicans, will characterize this state ment as a "Republican He." They will say it has not the slightest semblance of truth. Let us sea

From here Colonel Bryan went to New York. He took part in several meetings He was entertained at dinner by O. P. H. Belmont, a millionaire and an aristocrat one whose tendencies are not in the direction of the western Democrat and Pepulist. He met all sorts of Democrats of all sorts of faith there and at subsequent entertainments. This on its face would appear suspicious. But there are more tangible things to show the correctness of the above assertions. A few days later tourke Cochran, a Democratic leader of high degree; one whose sympathies have not been with the silver wing arty; who supported President McKinley in 1896, came out in an interview. He "In 1896 I believed that fidelity to the

Democratic principles imposed opposition o the Democratic party. Therefore I supported the Republican candidate. My opposition however, was confined to the platform. The issue in the next election will be imperialism, or silver; it cannot be both. No matter what platform the convention may adopt, if its candidate were elected, the currency of this country sould not be reduced to a silver basis for at least four years. The sliver question therefore, will not play a decisive part in the campaign. A question which cannot be decided by the election cannot be-Democratic party it is not necessary that t should repudiate any of its former expressions; that it should renounce ress or even disguise any of its beliefs. This interview was published after Mr. Cockran had participated in a conference with Colonel Bryan at the Belmont ban. quet and it is noteworthy that in the nterview he says that "the desire for Mr. Bryan's renomination appears to be manimous in his party" and predicts not only his renomination but election.
